

Clean Up:

1. Use the cart to move the food from the dining room to the kitchen. Once the food is put away, wipe down the tables with sponges in the bucket located below the sink.
2. Lightly rinse the dishes before putting them in dishwasher.
3. Directions for the dishwasher are located on the counter above the Kitchen sink.
4. If there is a light load of dishes that would not fill the dishwasher, these could be washed by hand.
5. The Coffee and tea clean up is handled by Chris Stadler.
6. The floor does not need to be swept, but do clean up food spills with the rag under the sink.
7. If you are washing the dishes by hand also dry them if help is available.
